

Misty Angel

In the midnight fog, in the ocean wind

Little lights upon the pier

Let the silence fall, let the summer end

Won't you stay with me out here

'Cause all along that San Francisco seashore

There's a fire burning through my veins

And I'd walk forever here beside you

Just to tell you, just to say

Misty Angel, San Francisco

Can you hear me, can you wait

'Cause I'm calling, night is falling

Don't you leave me, one more day

Didn't see the sunrise through the cold autumn rain

Through all the words I didn't say

And I'm going nowhere on this five lane freeway

Just holding on for one more day

And I'm sleepwalking through this misty twilight

I'll see your face again someday

So think of me, San Francisco by the ocean

Hear my heartbreak, hear me say

Misty Angel, San Francisco

Can you hear me, can you wait

'Cause I'm calling, night is falling

Don't you leave me, one more day

Misty Angel, San Francisco

I'm still waiting, all alone

I swear I'm trying, lights are dying

Don't forget me, don't you go
